

MMP174 – COMMUN File

Description

COMMUN is community-level file that provides information at the time of the survey and it is complemented with other information using the Mexican Census.

COMMUN Variables

MMP174 – COMMUN file contains 174 observations and 266 variables.

Using the Mexican Census, we provide characteristics from 1950 up to the most recent census regarding population at the Municipio and Community level, and labor force participation by gender at the municipio level.

Using our own Community Data Questionnaire, we collect information about industry, natural resources, agriculture, standards of living, community development, infrastructure, and institutions. The Community Data Questionnaire is available on our website.

In addition, using data from INEGI, we provide data for homicide rates for our communities from 1990 to 2019.
